

PROVIDER – Covid Testing Visit

- 1) Collaborate with MA on what else to swab
- 2) Call patient to ask history of present illness
- 3) Go out to give test result to patient in full PPE
- 4) Examine patient while outside at their car
- 5) Give diagnosis & explain treatment, discharge
- 6) E-prescribe after patient drives off
- 7) If Covid is negative, can bring patient in for further work up and treatment rather than going out to car

NOTE: If bad weather, call patient to drive up to the closest stall and walk to the clinic door for swabbing.

PROVIDER – Regular Clinic Visit

- 1) Can call or initiate telemedicine to determine risk first
- 2) Order Rapid Covid Testing if need to
- 3) Bring patient into clinic once negative or if low risk
- 4) Perform the typical evaluation & treatment

All Covid Testing patients must be seen by provider
Provider, please generate a full Progress Note
Avoid using "Covid Testing" as the Chief Complaint
Use symptoms as CC and diagnosis if nothing else
Use "Covid Exposure" as dx for asymptomatic patients
